“Pametno promišljena kolekcija kratkih filmova... / A high-minded collection of short films...” The Guardian

Evropski reditelji propituju šta je Sarajevo predstavljalo za Evropu u stogodišnjoj historiji i šta predstavlja danas. Različitih generacija i porijekla, eminentni filmski stvaraoci nude nam mnoštvo individualnih pogleda i stilova.

European directors explore the theme of Sarajevo; what this city has represented in European history over the past hundred years, and what Sarajevo stands for today in Europe. These eminent filmmakers of different generations and origins offer exceptional singular styles and visions.
